VOLUME 10

Valley Herald

Official County Paper.

BY F. E. DU TOIT.

A THURSDAY JAN. 4 1872.

General Folk was killed.

ex-Confederate, writing for the minister Review, gives the following account of the death of the Bishop al.

death of the distinguished man while our army lay in front of

Johnston, with a group of

s, among whom was Folk, was

a reconnaissance of the enemy's

from the summit of the Pike Mount

a lofty, solitary mount, which jut

from the range, and formed the

an acute angle, on which our

is arranged. The situation was a

sardonic one, being commanded,

reached, by guns from any por

the enemy's lines. The unusual

in such a conspicuous place

attracted the vigilant enemy. A

in front immediately fired one

which we afterwards found out was

to prelude to one of the most fear

ellings I ever witnessed. He was

standing between young

gards' battery and fifth company

dington Artillery, Johnston at

the works looking through a

lens. The first shot could not

miss him two feet, but the only

he paid to it was to turn his

to the battery that fired it. Folk

the meantime, separated from

and was walking thoughtfully

with his left side to the enemy,

down, and his hands clasped

him. The second shell fired at

struck him in the arm, and

through the bldg, tearing out his

and then crushing his right arm,

be elbow. He dropped on one

wavered, then fell on one side.

I had hardly turned my back

the murmur of horror run

in the line. General Folk is kill

aston said not a word, but ran

and lifted him in arms. Har

ored a cry, and also rushed for

He was passed all human help

submits of his staff tenderly lifted

him from the field."

A Literary Burglar.

is known to the inhabitants of rgh as a "literary burglar" has ccessfully at work at the Alleg- brar in that city. It seems to exceedingly skilful individual, leaves no traces of any kind, by night, or in the daytime. His library is at his meals; just aces seize him. He last exploit Thursday last, when he came in the library was at dinner and the tables of fresh magazines had just been put out that day; there is not the slightest clue gives a hope that he may be found. Inding it impossible to secure the directors have adopted a new protect their property, and have a large chain, by means of in front of each case, running all round. This is something like the stable door after the horse; at any rate, it will do very well protection of that saying.

A good Story on Seward.

Janes Brooks writes to the N. Y. Express from China:

They tell of a good story in Pekin of Gov. Seward when here—doubtless a but too good story to be true for all of that. The expectations of the ex-governor were doubtless great when he entered the great capital of the great empire with which he had made a great treaty, and he therefore indulged in these great expectations of a great welcome. As he entered the gates of Pekin, a great "furore" procession was awaiting him with music, cattalogue &c., all as imposing as the procession of some great dead man could be made.

The Governor was entering with the marine band of the Colossal, mounted on donkeys, as the grand procession was going out. The great living and the great dead thus met. The Governor naturally enough concluded this was in honor of his grand entrance, and he rose and rose, in his open sedan chair, and bowed, and bowed, and then ordered a halt and got out, and bowed, and bowed again, to the catalogues and the dead. The Chinese think all foreigners rather mad, and hence did not marvel over it as much as they might; but when Gov. Seward found out what he had done, the story is he was more mad than pleased.

The Next War. An important piece of news has Paris from Germany, which has some sensation. This is that, some time during this month, France after the reassembling French Assembly. The German before starting, however, to know the feelings of the As- upon the subject of his visit, erecting feature of this report is rumored that Bismarck, fore- foreign war in which Prussia engaged, will go to France to neutralize, in case of need, for this neutrality, in case of will, it is whispered, make de- position to France. The latter is the subject of much in German political circles,

Feeding Straw.

if properly managed, can be serve a more profitable purpose than littering, or to add bulk to piles. In England, and the English farmers in Canada, the bullocks are fed and fattened with roots and meal. No hay that being kept for the horses arge number of stock can be fed, it wetted, and sprinkled with seed or oil meal, will carry cattle through the winter. Oats, rye, and wheat straw are proper valuable in the order in which e placed. Pea straw is more than catstraw.

elevator in the Fifth Avenue New York gave way last eve-

four servants were seriously

injured.

William Brown stabbed and killed his wife in Lynn, Mass., on Saturday.

The Democrats of Georgia have nominated Hon. J. M. Smith for Governor.

The number of deaths from yellow fever at New Orleans this season was twenty-three.

The Hope Spica Mills, at Birmingham, were burned on Wednesday evening. Loss \$20,000.

The Agricultural Bureau says the area in crop was greater in 1871 than in any former year.

The Grand Duke Alexis placed \$1,000 at the disposal of Mayor Gaston for the poor of Boston.

The first meeting of female suffragists over held in Baltimore, took place on Wednesday evening.

MARIE DALY beat Cyrilis Diaz at billiards in New York on Monday, making the astoundingly even of 120.

The famous horse of B. S. Harrell, was destroyed by fire on Saturday evening. Loss \$15,000.

AVENIA BENNETT, an American girl, 17 years of age, made a successful debut as Amilia, in "Sempronius," at Alessandria, Italy.

The Union Pacific Railroad is still blocked with snow. Passengers who left Omaha on Friday were at Laramie Station on Wednesday.

The statement of the receives of the Ocean Bank shows the liabilities to be \$1,-\$10,000 assets, \$2,000,000. Of the latter \$2,000,000.

Lars' advises from officers in charge of the Apache Indians state that over one half of these Indians have come into different camps, and are now at peace.

JOHN R. DUFF, a clerk in the Memphis post office, drew the capital prize of \$35,000 in the Louisville Library Lottery. The second prize was won in Virginia City.

The statement of the defunct Eighth National Bank of New York and San Francisco showed the following assets: Legal funds \$155,300 deposits \$504,000; circulation \$20,000.

A grand jury has been ordered empaneled in Chicago, to investigate the charges of bribery which have been preferred against members of the Common Council, and other city officials.

The United States survey steamer Hassler, with the scientific party of explorers, sailed from Boston on Monday, upon its voyage along the Atlantic and Pacific coast of North and South America.

A train at Spring Lake, Mich., on Tuesday night, destroyed the residence and hardware store of A. Biss, the residence of Capt. Bescha, and the millinery establishment of Mrs. Helle, total loss \$22,600; available insurance, \$5,000.

At his own request, and by direction of the President, Brig. Gen. W. B. Butler, Paymaster-General, is relieved from active service, and his name will be entered on the list of retired officers of that grade to which he now belongs.

A Waukesha special says official advice to the Governor has ordered Catacazo to leave Arizona after the rebellion, the Grand Duke as far as St. Louis, and the rebellion placed in charge of Baron Dantz, as his Secretary, till the arrival of the Charge d'affaires, who leaves at once.

A young Van Dusen, aged 11, son of a respectable family, died at Madison, Wis., on Monday morning, after having apparently slogged himself with rat poison. He had been at the head with the same instrument, at a late hour Tuesday night. The murderer is under arrest. He is said to be insane.

A HEAVY freight train, coming east on the Indianapolis and St. Louis Railroad, ran off an embankment near Maryville, Mo., Wednesday afternoon, instant killing John O'Neale, engineer, and D. Griffin, fireman, and causing a complete wreck of the engine, tender and fourteen cars and their contents, including 150 hogs.

COUNTS ISSA, wife of Don Fernando of Lisbon, Portugal, herself a native of the United States, has seat, through Hon. Hamilton Fish, Secretary of State, sixty pounds sterling for the benefit of the Chicago sufferers. A draft has also been received of one thousand pounds from Dublin, Ireland, to be applied to the same charitable purpose. This makes a total of four thousand five hundred pounds in this city.

WORKERS in the caissons of pier No. 6, of the bridge across the Missouri River at St. Joseph, found a large specimen of smelted, melted, and polished metal, which was in the strain of glass covering the rock bottom, as depth of forty-three feet below low water. This gravel bed is evidently an old bottom of the sea. Work on the bridge is progressing rapidly, and the completion of the entire structure is expected in about two weeks.

THE final games in the Cleveland Chess Concert were played on Friday, and in the evening the distribution of prizes were made, as follows: First prize, \$100, G. H. Meekin, New York; second prize, \$50, H. Hommer, Chicago; third prize, \$40, F. H. Elder, Detroit; fourth prize, \$25, Max Gold, Cleveland; fifth prize, \$20, P. W. Ward Jr., Boston; sixth prize, \$20, H. D. Smith, Michigan; seventh prize, \$15, H. Harding, Michigan; and the "North British and Mersey," and the "South British and Mersey," and the most responsible of all the foreign insurance companies, have taken a decided stand in opposition to the further erection of frame buildings in the ruined portions of Chicago. They are determined to assume no more framework than is necessary to support the walls, and to make them as light as possible.

It is also rumored that several eastern insurance companies have decided to abolish their Chicago agents, and that the insurance companies with regard to world's buildings, it is feared that the rumor will prove to be true.

A broad.

The Ex-Emperor Eugenio has arrived at Santiago.

PRIESTLY THIERS has promised a delegation of Protestants that religious equality shall be maintained in France.

English merchants, when the illness of the Prince of Wales was alarming, bought the entire stock of black gloves, black artificial flowers, dry goods and jet ornaments in Paris.

It is reported that the Orleans Prince, have determined to take their seats in the French Assembly at an early date, and that they, when there, will act with the party of the Right Centre.

This tell to repeat the law of Wyoming giving women the rights of suffrage has passed, the Governor's veto to the contrary notwithstanding, in the House, was lost in the Council for want of a two-thirds vote.

THERE is a feeling in some circles that the official bulletins in London have represented the case of the Prince of Wales to be worse than it really is, in order to arouse sympathy for the Prince, and make him popular.

The French Committee has agreed to a recess to the Government of England an oil painting commemorative of the great efforts made by the people and authorities of that country to supply the French people with food when sorely pressed by famine and distress at the close of the war.

Grandmother Tenteden. (MASSACHUSETTS, 1800.)

IT WAS a long time ago since I last wrote to you. The sun was still below the horizon when I sat down to write; the tongue was like a crooked knife, and my Jacob, who was cast away.

I said, "God keep you, mother dear, do not turn to kiss me wife; I have not seen her for a long time; her tongue was like a crooked knife, and we were as proud as any peacock."

Howbeit that night I took no note of any man's words and movements; I marked not that the hills looked over, nor that the moon, though clear and dear, did not give light enough to drive and float.

NEW YORK is to have twelve additional steam fire engines.

A HEAVY freight train, coming east on the Indianapolis and St. Louis Railroad, ran off an embankment near Maryville, Mo., Wednesday afternoon, instant killing John O'Neale, engineer, and D. Griffin, fireman, and causing a complete wreck of the engine, tender and fourteen cars and their contents, including 150 hogs.

COUNTS ISSA, wife of Don Fernando of Lisbon, Portugal, herself a native of the United States, has seat, through Hon. Hamilton Fish, Secretary of State, sixty pounds sterling for the benefit of the Chicago sufferers. A draft has also been received of one thousand pounds from Dublin, Ireland, to be applied to the same charitable purpose. This makes a total of four thousand five hundred pounds in this city.

WORKERS in the caissons of pier No. 6, of the bridge across the Missouri River at St. Joseph, found a large specimen of smelted, melted, and polished metal, which was in the strain of glass covering the rock bottom, as depth of forty-three feet below low water. This gravel bed is evidently an old bottom of the sea. Work on the bridge is progressing rapidly, and the completion of the entire structure is expected in about two weeks.

THE final games in the Cleveland Chess Concert were played on Friday, and in the evening the distribution of prizes were made, as follows: First prize, \$100, G. H. Meekin, New York; second prize, \$50, H. Hommer, Chicago; third prize, \$40, F. H. Elder, Detroit; fourth prize, \$25, Max Gold, Cleveland; fifth prize, \$20, P. W. Ward Jr., Boston; sixth prize, \$20, H. D.

THE NEWS.

At Home.

A portion of the shoemakers of Natick are on a strike against the wages. Mr. Horner, who died in Germany leaving a sum of half a million between five or six hours residing in Pittsburgh.

HENRY L. HOOPER received \$3,500 from the people of France as a Christmas gift for the Chicago sufferers, of which Mayor Medill has been duly notified.

SOLICITOR GENERAL BUSKIRK withdrew his resignation at the request of the President.

The collision on the Michigan Central road on Friday near Three Lakes, Tenn., was a very destructive affair. Two heavy freight trains collided with great force, wrecking four locomotives and ten cars, killing an engineer named Charles Young, of Marshall, and injuring two men named Neil and Watson. Eight of the freight cars were burned.

Tuscan dispatches say the Apache Mojave Indians who murdered Loring and party, near Wyckeburg, have fled from the Date Cross reservation to the mountains.

Four New York girls were seen playing cards in a denoted room in the Bowery. A handkerchief served the purpose of a card-table, and in the lay of one of the players were several fractional notes forming the pool.

A. P. CALAHAN, Republican, has been reelected Mayor of Allegheny City by 4,000 majority.

The residence of Mrs. Gauss, in Buffalo, was robbed of \$5,500 in 5-20 bonds Thursday evening.

Two locomotives on the Lake Shore Railroad collided near Cleveland, on Thursday, killing Charles Smith and Charles Ackerman, brakemen.

Another car-hoist motor is reported from New York city, the victim being Thomas Larmin, a conductor on the Third Avenue Railroad, and his murderer a discharged driver named Robert Halloran.

A PERSONAL note from Omaha, Sunday, announces a severe snow storm, which extended throughout the mountains to the Pacific coast. Western trains are snow-bound, with a prospect that several days will be required to clear the obstructions.

A man named Barnes, residing in Kane, Pa., has been arrested on suspicion of having murdered his wife and child, whose bodies were found under a barn near their home, the former strangled and the latter with its skull broken.

The Republican Senators have decided that the Committee on Retrenchment will be appointed the same as other committees, but not jointly with the House, nor with the powers as contemplated. Senator Trumbull's resolution.

Among the nominations sent to the Senate by the President on Wednesday, there those of S. H. Allen, as register of the land-office at Stevens Point, Wis., and D. L. Quin, recorder of the land-office at Stevens Point, Wis.

The Hudson River is again open for navigation most of its length. All the ferries have re-opened. A gorse near Newburgh cannot last more than a few hours. The floating ice near Newburgh is but little or no impediment to navigation.

There is ten feet of snow on a level in the Little Cottonwood mining districts, and at last accounts it was still snowing. Freighting ore from the mines is wholly suspended.

Two brothers named McFall, one an engineer and the other a brakeman, were run over on the Delaware, Lackawanna and Western Railroad near Scranton, Tuesday evening, and instantly killed.

An express and coal train collided on the Delaware, Lackawanna and Western Railroad, Friday, killing Jackson Andrews, of the coal train. Engineer Burdick, of the passenger train, was seriously injured, and two or three others were slightly hurt.

C. A. LAWRENCE, a wealthy gentleman, aged 62, from Elgin, Ill., in a temporary fit of insanity, leaped from a third story window of the American House in Boston, on Friday, and falling upon some iron spikes, sustained injuries.

A WASHINGTON special says: "General Schenck, our minister to England, having accomplished his purpose with reference to the treaty of Washington, and regarding his presence here as imperative, has requested the government to name his successor and call him home."

MRS. CHARLES WENNER, living in Shady St., Louisville, murdered her mother-in-law, Anna K. Lerner, on Saturday evening. The murdered lady was sixty-five years of age.

Twenty-five thousand words of silk and lace were taken from a lady passenger by one of the European steamers which arrived at New York last week.

Edward Adams, a farmer residing near Bouillon, Ind., while interested in China, fell from his wagon upon a sharp stick, which penetrated his brain and caused instant death.

INFORMATION has been received by a recent mail confirmatory of the report that General Schenck has withdrawn from the directorship of the Emma mine.

It is stated that, by the passage of Dawes' eight-point resolution, now pending in the Senate, the coal lands in the coal field of Arkansas will receive about \$20,000 each year, that place being one which only allowed eight hours pay for eight hours' labor.

G. W. WINSTON, a colored lawyer, was assassinated at Helena, Ark., on Monday. The murder probably political differences in the state in that he was a member of the ex-slave movement, and hundreds of negroes are pouring into the town, and it is feared the murderer will be taken from the jail and lynched.

The British Bark Clans and the Hawaiian bark Arctic, the vessels which saved and brought to Honolulu the wrecked seamen of the whaling fleet recently broken up by ice in the North Pacific, have presented our Government a claim for service rendered to the amount of \$9,520.

General T. C. Jones, formerly keeper of the Edsel House, at Highgate, New Haven, has been arrested on suspicion of being accessory to the robbery of the house of some \$80,000 worth of goods, last week. An intimate acquaintance of Miss Adams, named William, has also been arrested, and is still at Highgate.

THOMAS HAWKINS shot and killed Prof. Jelton, a Master's wife, Christmas night, near Cowan, on the Nashville and Chattanooga Railroad. They had during the day quarreled, and on meeting at night Hawkins immediately attacked Jelton, the second shot passing through his heart and killing him instantly. Jelton is the son of his family who have been a violent death.

Aboard.—PRESIDENT THIERS has issued a decree dissolving the Council at Algiers.

A NATIONAL subscription is proposed in England for the rebuilding Warwick-Castle.

The cocaine trial has reached another stage. The plaintiff's case closed on Thursday, and a further hearing was postponed until January 15th.

An imperial decree fixes the conscription for the Russian army for the year 1872 at six men in every one thousand.

The steamer Delaware, Breton master, from Liverpool for Calcutta, was totally lost on Wednesday off Sicily Island. All on board are supposed to have perished.

J. A. HOWARD, who has been for some time awaiting trial at Gloucester, Cork, for giving aid to the rebels, has at last been tried, convicted and sentenced to eight years' imprisonment in the penitentiary.

BISMARCK has sent a dispatch to Baron von Arnim, German representative at Paris, setting forth the feeling of exasperation caused in Germany by the outrages perpetrated on her soldiers in France. He threatens to seize hostages on the occupied provinces unless the assassins in future escape into neighboring countries. He also demands the delivery of German officers by the French authorities, and declares that unless these horrible outrages cease the army of occupation shall be increased, and the burden and expense of its support, which is paid by France, doubled.

Another Year.

"Another year," she said, "another year. Those we'll be watching with much care, Have watched her long with much pain or fear, Shall bid and bloom for me exceeding fair—"

"Another year," she said, "another year,

"May bid and bloom like these red roses here, Unlike them, tended with regret and pain—"

"Another year, ah yes, another year,

"When bloom my roses, all my life shall bloom; When summer comes, my summer too'll be here—"

"Another year, ah yes, another year,

"When bloom my roses, all my life shall bloom;

"When summer comes, my summer too'll be here—"

"Another year, ah yes, another year,

"When bloom my roses, all my life shall bloom;

"When summer comes, my summer too'll be here—"

"Another year, ah yes, another year,

"When bloom my roses, all my life shall bloom;

"When summer comes, my summer too'll be here—"

"Another year, ah yes, another year,

"When bloom my roses, all my life shall bloom;

"When summer comes, my summer too'll be here—"

"Another year, ah yes, another year,

"When bloom my roses, all my life shall bloom;

"When summer comes, my summer too'll be here—"

"Another year, ah yes, another year,

"When bloom my roses, all my life shall bloom;

"When summer comes, my summer too'll be here—"

"Another year, ah yes, another year,

"When bloom my roses, all my life shall bloom;

"When summer comes, my summer too'll be here—"

"Another year, ah yes, another year,

"When bloom my roses, all my life shall bloom;

"When summer comes, my summer too'll be here—"

"Another year, ah yes, another year,

"When bloom my roses, all my life shall bloom;

"When summer comes, my summer too'll be here—"

"Another year, ah yes, another year,

"When bloom my roses, all my life shall bloom;

"When summer comes, my summer too'll be here—"

"Another year, ah yes, another year,

"When bloom my roses, all my life shall bloom;

"When summer comes, my summer too'll be here—"

"When summer comes, my summer too'll be here—"

The Suicide.
A treacherous river, dark and deep,
O'er which the moonbeams lightly sweep,
To trust their shimmering whiteness there,
Among the wavy trac'tious fair,
By some one's hand.

A wan, wild face with flowing hair,
And eyes with almost maniac stare,
Peers down below,
And then a shrill, despairing cry
Of human woe.

Two arms are onward madly tossed—
A single hand holds all the rest,
Beneath the wave,
The yawning gulf ope wide, to where
A shadowy form, hair'd, sinks to grave.

The water's purple smoothly on,
And bear no trace of sleep upon,
And when the morning comes shall shine,
There'll be one heart less to pine—
One less to weep.

FARM, GARDEN AND HOUSEHOLD.

A Pretty Way to Train a Fuchsia.
When a slip has grown six or eight inches high, nip out the top leaves; then the next set of leaves it will then throw out branches on each side. Let these grow eight or ten inches, then nip them off, before the top of each branch when grown the same height as the others, and then nip them again; then procure a stick of equal size, finger eighteen inches in length—take hoop-skirt wire twice back and forth alternate; through holes made in the stick equal distances apart—place this firmly in the part back of the plant—the wire will hold it, and you will have, when in flower, a beautiful and graceful plant. Having one trained in that way last season, it was the admiration of all who saw it.—*Small Fruit Recorder.*

Lovely Heads.

The Horticulturist says the tide of favorable weather is heading fruit trees low for orchard culture, experiencing a revolution. Orchardists who cultivate their orchards, and are in the habit of plowing or stirring the soil periodically, say low headed trees will not answer. It is impossible to approach near enough with the horse and implement, and hence the high standard of training will hardly be given up. Low training will answer for garden culture, or for orchards where there is a good deal of hard labor.

Light Brahmas Fowls.
Brahmas are undoubtedly the most popular of the gallinaceous fowls of today, and as between the "Light" variety and the "Dark" or penciled, the former is the most sought after. The two kinds should never be crossed, as has frequently been done, always with unsatisfactory results. Light Brahmas are chiefly white, the color of the plumage, but upon putting the bird will be found to have a tinge of bluish gray, by which they may be distinguished from white Cochins. The neck hackles of the Brahma are distinctly striped with black down the centre of each feather. That of the male bird is often lighter than in the case of the hen.—*Western Rural.*

LARGE Yield of Honey.

At the last meeting of the Grand Clunie, Wisconsin, Farmers' Club, the following report of the apary of Crawford Brothers, Hartford, Wis., was read:

June 1, 1871, we had 70 swarms of bees, most all Italian; about ten of them were quite light. We allowed them to swarm naturally. They cast 30 swarms. We made fourteen out of bees from 11,000 lbs. On June 1, 1863, was owned in Liverpool, from which she haled, by C. Dickson, Esq., and was classed as a first-rate vessel.

Obituary for Small Pox.
When Henry Ward Beecher went from the seminary at Cincinnati to Lawrenceburg, he was very poor, having a sum of \$400, half of which he had to come to him to get married on. When he got back to New Haven, he had 18 cents in his pocket. A kind of Methodist family entertained them for a week, and then they took two rooms. Now and then they received a spare rib, sometimes cast-off clothes, and such like. He fed himself sumptuously clothed, and seemed to be above it, though a large man, and the giver a thin man sometimes; the fit was not so perfect. In the church he had nothing to make others out of, but all this time he was delivered from discontent and grumbling. He had not the strength of body, but what he had was like granite, and could not and would not stick on. In later years he says he has worked harder and both gained and lost, but don't think he had a grateful and tender spirit of thanksgiving as he had in earlier days.

The Lost Steamer Delaware.
According to the telegram reporting that the steamer Delaware, bound from Liverpool for Calcutta, had been lost off the Scilly Islands, entrance of the English channel, and that all hands had perished, the Boston Traveller says: "An one-time ship formed one of Warren's Co. line of American Boston steamers, and she has been in this port. She was an iron propeller of 2,100 tons register, when in the American trade, but since then we learn from Capt. Burwell, she has been repaired, and otherwise improved. She was built at Iguaçu, Brazil, in 1863, was owned in Liverpool, from which she haled, by C. Dickson, Esq., and was classed as a first-rate vessel."

Obituary for Small Pox.

A physician in the City of Iowa uses a mixture made of clover and lard to prevent pitting in small-pox. This is applied freely over the face, hands and neck as soon as the disease is distinguished, and continued until all symptoms of suppurative fever have ceased. The application allays the irritation and swelling, shortens the period of the disease, and leaves the patient without a blemish, the eruption showing, by the ointment not even showing signs of pustulation, the charcoal preventing the action of light, and the lard of air.

The art collection recently destroyed at the New England, gave a fine plump, yellow skinned turkey, weighing from ten to twelve pounds. Examine it thoroughly to see that all the pin feathers are taken out; hold it over a flame to singe any fine hairs that may remain; wash it thoroughly inside and out, and rub it with salt. Take the gizzard, heart, and liver, put them into cold water, and let them boil until tender. When done, chop them very fine. Take stale bread, or Boston crackers, and grate or chop them. Add salt, pepper and some sweet herbs, as thyme, marjoram, or summer savory to the bread crumbs; after which beat the two eggs with which to moisten them; add the chopped "inwards," not forgetting to put in salt and butter. Fill the inside of the turkey with the dressing, the patient without a blemish, the eruption showing, by the ointment not even showing signs of pustulation, the charcoal preventing the action of light, and the lard of air.

Take the gizzard, heart, and liver, put them into cold water, and let them boil until tender. When done, chop them very fine. Take stale bread, or Boston crackers, and grate or chop them. Add salt, pepper and some sweet herbs, as thyme, marjoram, or summer savory to the bread crumbs; after which beat the two eggs with which to moisten them; add the chopped "inwards," not forgetting to put in salt and butter. Fill the inside of the turkey with the dressing, the patient without a blemish, the eruption showing, by the ointment not even showing signs of pustulation, the charcoal preventing the action of light, and the lard of air.

The art collection recently destroyed at the New England, gave a fine plump, yellow skinned turkey, weighing from ten to twelve pounds. Examine it thoroughly to see that all the pin feathers are taken out; hold it over a flame to singe any fine hairs that may remain; wash it thoroughly inside and out, and rub it with salt. Take the gizzard, heart, and liver, put them into cold water, and let them boil until tender. When done, chop them very fine. Take stale bread, or Boston crackers, and grate or chop them. VOLUME 10

he Valley Herald

Official County Paper.

CHASKA THURSDAY JAN. 18 1872.

Our Railroads.

The progress of our railroads during the year just closed has been most flattering, judging by the amount of miles completed. For instance—

The Northern Pacific completed 178 miles of road during 1871.

St. Paul and Pacific (main line) 72 miles.

Minneapolis and St. Paul, 56 miles; Hastings and Dakota, 20 miles.

Minneapolis and Duluth, 12 miles.

Minneapolis and St. Louis, 28.

Chicago and St. Paul, 46 miles.

St. Paul, Stillwater and Taylors Falls, 21 miles.

Wisconsin and St. Peter, 204 miles.

Which gives a total for the year 1871 of 474 completed miles.

The number of miles completed last year was 1,059.

This gives us 1,550 miles of completed railroad within the State of Minnesota.

What state in the Union on a comparison of population can say so much?

By the end of 1872 we have every reason to say that the railroad branch of the St. Paul and Pacific; the St. Paul, Winona and St. Peter; the St. Paul and the Southern Minnesota to the Western boundary of the State, will also be completed, adding some five or six hundred more miles to the length of railroads, which will give us in Minnesota over 2,000 miles of completed roads.

With eight lines of railroad concentrating at one point, who can picture the future of St. Paul, in our mercantile enterprise, wealth and population.

Small-Pox in Italy.

A private letter dated Messina, Jan. 9, 1871, says:

At present every city in Italy is infected with small-pox. In Messina a large portion of the lower classes are attacked and many of them die. The health of those above mean bits of health but since the 17th inst., the American and British Consuls, after a consultation, agreed to enter in their lists of dead all small-pox cases which have occurred in Italy, some of which have terminated fatally. The other Consuls think it unnecessary, as, in their opinion, the disease was raging over the whole Continent of Europe.

An estimate of the crops for the year 1871 made by a prominent revenue officer, states the hog crop to be the largest and last over produce in the country; the crop of wheat is one quarter short of that of last year, while the cotton crop will yield about 3,300,000 bales, being about 1,000,000 bales less than last year, and over an average of the crop for the ten years preceding 1870. The present crop will bring planters more than half year's product. This is because the planter has reduced planting, which has enabled him to raise most of his bread and meat; whereas last year he had to purify his provisions with money derived from his cotton crop, the aggregate of which was 4,52,000 bales. He received fifty per cent, less per pound for that crop than he is receiving for this one.

CONCERNING JUDGMENT.

A special dispatch from Washington to the New York Tribune contains the following interesting intelligence.

There is a rumor to the effect that the President will immediately after the Senate committee returns from New York and submits its report, make a clear sweep of all the principal officials connected with the New York custom house, filling their places with men of proved business who have not been active in behalf of either faction of the Republican party in New York, so that he will move this body by the dismissal of the whole kitchen cabinet, sending Porter, Deaf and Babcock back to their

An affecting story comes from Louisville to the following effect: Two beautiful young ladies of aristocratic appearance were standing on the corner of Broadway and Fourth street, the other afternoon, waiting for a car. One was on a shopping expedition, and the other waiting to see her off. The car came up and stopped for the passenger, who turned to her friend to give the usual good by kiss, when by some means her arms became entangled in the curls of her friend's hair, so she was tearing herself away, and caused a huge blonde wig, falling with its mass of rich and shining curly hair, rolled up in a skein, and arranged to resemble a spiree wig.

Miss Grant, owner of the Wig

Love and Suicide.

West Meriden, Conn. [Jan. 1.] Correspondence of the New York Herald.

Some five months ago, a young man named Frank Marker, a compositor on the Republican of this city, became enamored of the daughter of his boarding-house keeper, Miss Flossie Faulkner. Flossie was very prepossessing, and the girl, telling him to keep from liquor, promised to wed him. He did so, and two months ago went on his way rejoicing to his parents in Toledo, Ohio, and having renounced their consent returned to marry the girl. While awaiting for the wedding garments to be prepared, he suddenly left the city; the prevailing opinion is that he had changed his mind and "got over young to marry yet." He was aged 23. The girl, it would appear, reproached him in a letter and refused to have any further correspondence with him. In sheer desperation he last week came to Meriden, two pistols he had purchased on the way having been taken from him. He obtained a third left before arriving here, and sought a new name, Fitch, whom he claimed had influenced the girl to his disengagement. This Fitch, who is married, and also a compositor, denied the charge in the presence of the young lady. Marker left the room, saying, "I will shoot myself." His friend tried to get the pistol away from him, but failed, and the young man escaped.

He was last seen alive at half past 4 o'clock on Saturday afternoon. He was discovered dead on Monday morning, lying on his face in the snow, in a lot of woods near Hendrick Grove, distant about half a mile from the city. He had taken his life with a pistol, having placed the muzzle a little to the left of the right ear. The ball halved in the base of the brain and killed him instantly. He had taken off his overcoat and hat, and left a bullet announcing his intention to take his life for love. He added: "And if there is a hell now, I will not give me a barrel of tar and some kindling, and I will make one of my own."

In his memorandum book was a brief prayer asking forgiveness.

At his feet lay the fragments of a letter from his sweetheart, renouncing him.

—
A Girl's Throat Faſtly Cut by the Core of an Apple.

[From the New York Sun.]

Miss Mary Ellen Fox, the young lady whose throat was cut by the core of an apple, in the Normal School, a few days ago, is dying. She was eating the apple, and, while in the act of swallowing a portion of the core, it cut the lining of the throat and severed the arteria lutea. Her classmates were astonished to find her fall over on the floor and vomit large quantities of blood. She was carried to the police station, but little could be done for her beyond keeping her perfectly quiet. Her mother, who had been summoned, was not allowed to more than tell her daughter in the first consequences. The poor woman sat in the station house, watching her daughter all night. Next day she took her home, where she has lived ever since, slowly wasting away. It is impossible for her to swallow anything whatever, and her tongue has become so contracted that nothing can enter it. She is so weak from loss of blood and starvation that the physician in attendance refuses to perform any operation on her, or even to insert a silver tube below the wound, as has been successfully done in other instances where the mouth or throat have been injured. We were unable to publish the same.

ACCIDENT.—Wm. Schneider of Ben-ton, met with a serious accident last week, while in the woods, having sustained a dislocation of the shoulder, a limb of a tree having fallen upon him. Dr. Northrop, physician in charge.

DIED.—Mrs. Hellrigel of Laketown, died last week of small pox after a short illness.

Mr. Bender of Laketown, a young man died last week of small pox.

Died in Chanhassen last week, Henry Aspen aged about sixty-five years.

He was a good citizen, a worthy and respectable citizen.

DIST. COURT.—The Dist. Court was in session on Tuesday of this week, Judge Chatfield presiding. No important business was transacted, simply the argument of a few law questions. It was an adjourned term, no jury being present.

DIST. COURT.—Daniel Stone, the efficient Town Clerk of Chaska has just completed his work, under the law of 1870, of recording the number of deaths and births in this town during the year 1871, and reports the following: births 88, deaths 21.

EPIDEMIC.—There seems to be a perfect stampede in the matrimonial sphere in the way of divorces. The District Court calendar shows no less than six cases in starting. Messrs. Baxter & Peck are the first of Jan. 1872. We

If you want proof of the latest improved cooking or party stoves, or any thing in the line of hardware or otherwise at Fritz Wissmann, before purchasing elsewhere. He keeps the best, and sells the cheapest.

GOOD TIME.—The Schoolboy Visitor Magazine comes this month in the full flush and bounding health of "Sweet Sixteen," and right heartily do we welcome it, and give it our New Year's greeting. We wish all our boys and girls could become acquainted with this charming Young Folks' Magazine, for we know they could not help liking it and wanting it, for it is only one dollar a year. The Visitor is firmly established, being now in its Sixteenth year, and is in every line trim and pure and good. A story from Harry Castle, the greatest story writer for boys and girls, commences in the January number, entitled "Our Fellowes"; which will delight everybody, we are sure, when it reads it. Send a green stamp to J. W. DAUGHADAY & CO., Publishers, Philadelphia, Pa., and get a specimen number of the Visitor.

Our Railroads.

The progress of our railroads during the year just closed has been most flattering, judging by the amount of miles completed. For instance—

The Northern Pacific completed 178 miles of road during 1871.

St. Paul and Pacific (main line) 72 miles.

Saint Paul and St. Peter, 56 miles, Hastings and Dakota, 20 miles.

Minneapolis and Duluth, 12 miles.

Minneapolis and St. Louis, 28.

Chicago and St. Paul, 46 miles.

St. Paul, Stillwater and Taylor's Falls, 21 miles.

Winona and St. Peter, 254 miles.

Which gives a total for the year 1871 of 404½ completed miles.

The number of miles completed before last year was, 4,059.

This gives us 1,550 miles of completed railroad within the State of Minnesota. What State in the Union on a comparison of population can say so much?

By the end of 1872 we have every reason to say that the Brainard branch of the St. Paul and Pacific; the St. Vincent branch of the same road; the extension of the Sioux City and St. Paul, the Winona and St. Peter, and the Southern Minnesota to the Western boundary of the State, will also be completed—adding some five or six hundred more miles to the length of railroads, which will give us in Minnesota over 2,000 miles of completed roads. With eight lines of railroad converging at one point, who can picture the future of St. Paul, in commercial enterprise, wealth and population.

Small-Pox in Italy.

A private letter dated Messina, Dec. 9, 1871, says :

Almost every city in Italy is infected with small-pox. In Messina a large portion of the lower classes are attacked and many of them die. The health officer gives clean bills of health, but since the 7th inst., the American and British Consuls, after a consultation, agreed to issue in their bills of health that small-pox cases have occurred in the city, of which have terminated fatally. The other Consuls think it unnecessary, as, in their opinion, the disease is as raging over the whole Continent of Europe.

An estimate of the crops for the year 1871, made by a prominent revenue officer, states the hog crop to be the largest and best ever produced in the country; the crop of wheat is one quarter short of that of last year, while the cotton crop will yield about 3,300,000 bales less than last year, and over an average of the crop for the ten years preceding 1869. The present crop will bring planteurs more than last year's product. This is because the planter has reduced plating, which has enabled him to raise more of his bread and meat, whereas last year he had to purchase his provisions with money derived from his cotton crop, the aggregate of which was 4,252,000 bales. He received fifty per cent, less per pound for that crop than he is receiving for this one.

CONFESSING JUDGMENT.

A special dispatch from Washington to the New York Tribune contains the following interesting intelligence.

There is a rumor to the effect that the President will, immediately after the Senate committee returns from New York and submits its report, make a clean sweep of all the principal officials connected with the New York Custom House, filling their places with men of prudence in business who have not been active in behalf of either faction of the Republican party in New York, and that he will follow this move by the dismissal of the whole kitchen cabinet, sending Porter, Dean and Babcock back to their regiments.

An affecting story comes from Louisville to the following effect: Two beautiful young ladies of aristocratic appearance were strolling on the corner of Broadway and Fourth street, the other afternoon, waiting for a car. One was on a shopping expedition, and the other waiting to see her off. The car came up and stopped for the passenger, who turned to her friend to give the usual good by kiss, when by some means her arms became entangled in the curls of her friend, and just as she was tearing herself away, down came a huge blonde wig, falling with its mass of rich and shining curls and ringlets at their feet, and revealing a head of dark, sick hair, rolled up in a tight, uncomely knot, and arranged to affect a despotic wig.

It is said that Mrs. Grant instead of a jeweled bracelet, a fine high

Love and Suicide.

West Meriden, Conn. [Jan. 1.] Correspondence of the New York Herald.

Some five months ago a young man named Frank Marker, a composer on the Republique of this city, became enamored of the daughter of his boarding-house keeper, Miss Rosa Faulkner. Rosa was very prepossessing, and the girl, telling him to keep from liquor, promised to wed him. He did so, and two months ago went on his way rejoicing to his parents in Toledo, Ohio, and having obtained their consent returned to marry the girl. While awaiting for the wedding garments to be prepared he suddenly left the city; the prevailing opinion is that he had changed his mind and "felt o'er young to marry yet." He was aged 23. The girl, it would appear, reproached him in a letter and refused to have any further correspondence with him. In sheer desperation he last week came to Meriden, two pistols he had purchased on the way having been each taken from him. He obtained a third before arriving here, and sought a man named Fitch, whom he claimed had influenced the girl to his disapprovement. This Fitch, who is married, and also a composer, denied the charge in the presence of the young lady. Marker left the room, saying to a frie of him that "the girl had cleared Fitch to me otherwise he (Marker) would have shot him." "Now," says he, "I will shoot myself." His friend tried to get the pistol away from him, but failed, and the young man escaped. He was last seen alive at half past 4 o'clock on Saturday afternoon.

He was discovered dead on Monday morning lying on his face in the snow, in a belt of woods near Henlock Grove, distant about half a mile from the city. He had taken his life with a pistol, having placed the muzzle a little to the left of the right ear. The ball lodged in the base of the brain and killed him instantly. He had taken off his overcoat and hat, and left a letter announcing his intention to take his life for love. He added : "And if there is a hell hot enough for Thaddeus Stevens, let me go to it; if not, give me a barrel of tar and some kindling, and I will make one of my own." In his memorandum book was a brief prayer asking forgiveness. At his feet lay the fragments of a letter from his sweetheart, renouncing him.

H & D. RAILWAY.

The following indicates the time for the arrival and departure of trains at Chaska.

Down train 9:35 A. M. 6:00 P. M.

Up train 10:30 A. M. 2:00 P. M.

They leave Carver 15 minutes previous.

A New Bank to be Started at Carver.

We are authorized to announce that a bank with ample capital will be started at Carver on or about Feb. 1st. The owners of the same will be H. B. Strait, President 1st. National Bank, Shakopee, D. L. How Cashier of the same, and Geo. A. Du Toit of Carver.

The management of the bank will be conducted by Geo. A. Du Toit. We have not as yet learned the business name under which it will be conducted.

From our knowledge of the means, standing and reputation of the men connect with this much needed enterprise, we congratulate the citizens of this county. Maj. Strait and D. L. How, are both well known business men of Shakopee, and are known to be men of means. Mr. How being about as well known in Carver County as in Scott. They are honorable upright men.

Geo. A. Du Toit, who is to be the business man of the concern, is known to almost every citizen of our county, and for the last seven years has been at Carver in the Drug business. We will here say that Mr. Du Toit will continue his Drug store as heretofore. His duties at the bank, (which will be in the same building) will not interfere with his drug business.

We have no doubt but what the whole affair will be productive of much good.

LITERARY ASSOCIATION.

A week ago Friday evening a meeting of the Legislature was held, at which appropriate resolutions were passed, in respect to the memory of Jos. W. Dunn, late Secretary of the Association. It was unanimously voted that they be published in the Herald, and a committee of three was also app'd, for the purpose of having the resolutions properly engrossed, and presented to the family. Touching remarks were made by H. B. Willis, L. H. Griffin, Dr. Lewis, G. B. Holmes and others. The regular order of business was dispensed with, until the next regular meeting next Friday. A committee was also ap'd, to correspond with Hon. J. Donnelly, in view of having Mr. D. deliver a lecture before the association, sometime during the winter. A resolution was introduced and unanimously adopted, requesting Wm. Benson Esqr. to deliver an address on the 21st of Feb., upon such a subject as he may choose. There will be a full house to hear him, he is an excellent speaker.

QUOTE SICK.

We regret to hear that Pat. Collier of Hamelock is quite sick.

We hope soon to see him about as usual.

Dr. Lewis has been in him.

We were unable to publish the same.

PERSONAL.

Commr. Patterson of

Benton made us a pleasant call on Sat-

urday, after a week absence at Chaska in attendance upon the County Board

P. Weeg, the accommodating Auditor of our County was in the city on Saturday and honored us with a call.

Capt. Chas. Johnson, the efficient

Rep. representative from this district, arri-

ved home on Friday, to spend the Sab-

ath with his family.

H. B. Willis, took his departure from our midst on Saturday, much to the re-

gret of his numerous friends in Carver.

We understand that he will visit our place every two weeks.

Rev. P. Carlson is expected back

from Sweden, early in the spring. We

are glad to hear that he is much im-

proved in health.

PHERTY.

Call at G. A. Du Toit's

Drug Store, and see those new hand-

drawn pulls, just rec'd. from New York,

best in the West.

SEEDY.

A steady looking case was

lounging about town, four or five days

last week, when owner Foster took char-

ge of him, and gave him 20 minutes to

leave town. He went.

APPOINTMENT.

A. J. Carlson has been chosen chairman of the Board of

County Comrs. for the ensuing year.

He will make an excellent chairman,

and the members were wise in selecting

Mr. Carlson.

ANOTHER.

J. Thomas Kerker, of

Waconia, was re-elected by the comms.

County Supt. of schools for 2 years.

ELK.

We notice by the Glencoo

Register, that elk have been seen and

killed at their feet, and revealing a

head of dark, sick hair, rolled up in a

tight, uncomely knot, and arranged to

affect a despotic wig.

These cases have been

submitted to Dr. Patterson & Peck

for their opinion.

EPIDEMIC.

There seems to be a per-

fect stampede in the matrimonial sphere

in the way of divorces.

The District Court calendar shows

no less than six cases in court by

messrs. Baxter & Peck, the rate of

divorce, others less and more at least

than thirty years apart.

DEPOT.

The H & D. R. R. have

just completed a building 30 x 60,

to be used as a passenger depot.

In the spring it is their intention to erect a

large wheel house, near Mr. Lettow's residence.

There has been no agent

appointed for this place yet.

G. A. DU TOIT'S DRUG STORE.

CARVER INN.

The following indicates the time for the arrival of trains at Marquette St. Paul.

Up train 9:35 A. M. 6:00 P. M.

Down train 10:30 A. M. 2:00 P. M.

They leave Carver 15 minutes previous.

J. F. Lincoln, Supt.

SWEET SIXTEEN.

The Schoolday Magazine comes in the full flush and bounding health of

"Sweet Sixteen," and right heartily do we welcome it and give it our New

Year's greeting. We wish all our boys

and girls could become acquainted with

this charming Young Folks' Magazine

for we know they could not help liking

it and wanting it, for it is only one dol-

lar a year. The Visitor is firmly es-

tablished, being now in its Sixteenth

year, and is in every line, true and good

and good. It is the Schoolday Maga-

zine of Carver, and Maj. Larson and

his wife, George V. Larson, Managers,

on the second day of November

THE NEWS.

At Home.

Snow fell to the depth of ten inches in Brooklyn, Va., on Friday. Michael, the murderer, in whose defense Valentine had lost his life, has been acquitted.

JASPER BARKER, the well-known Philadelphia broker, is dead.

GEORGE W. CURRIE has been chosen President of the Civil Service Board.

The gross earnings of Minnesota railroads during the past year were \$2,490,414.

The debt of the state of Maine has been decreased over \$1,750,000 during the past year.

SIMON E. MONTE, brother to Professor Monte, died Saturday afternoon, aged seventy-eight years.

The ball of Wm. A. Glover, the Borlenton bank, has been reduced from \$50,000 to \$5,000.

The rumor that Hon. J. Young Seaman had purchased the Chicago Republican is confirmed.

The frigate Chattanooga, stuck at League Island, was estimated as a store ship. The machinery had been removed as she was a complete failure as a vessel.

The Legislature of Illinois has passed a resolution endorsing the one-star amendment to the Constitution of the United States now pending in Congress.

DR. ANGUS MUNN, United States Senator from Delaware from 1859 to 1866, and afterward Collector at Wilmington, died on Thursday, aged 80.

The will of William C. Moore, formerly of Brooklyn, giving half a million to charitable and missionary societies, has already reduced the expenses of the department \$50,000 per annum.

CHARLES H. DINWALL and Samuel C. Eggleston, aged respectively five and seven years, were buried in a plot in Prospect Park, B. L. Lewis, pastor, in full though the two Ringers, bell clerks in the choir of New York, committed suicide in a room of the hotel on Thursday, by shooting himself with a revolver. No cause is yet assigned.

A fire in Somerset, Pulaski county, Ky., last Sunday, burned twelve of the best houses in the village, including the Court House, which formed the best portion of the place. The loss is estimated at \$75,000.

The trial of Henry was exceedingly happy when he sat safely within the walls of the prison at Anzio, putting his thumb to his nose and making a fan of his fingers to the crowd outside as he went up the steps to the main hall.

MEMBERS of the New York Bar Association feel confident that they will be able to remove Judges McLean, Bassett, and Parker, and members of the press of a two-thirds vote and conclusively prove their official corruption.

FRANCIS McGRAW, one of the parties charged with the larceny of treaty seals from the State Department at Washington, pleaded guilty of perjury by consent, and was sentenced to pay a fine of \$200 or be imprisoned three months.

The Senate on Thursday, confirmed the following nominations: Geo. H. Baker, of Pennsylvania, Minister to Constantinople; W. T. Bissell, of Indiana; Governor of Idaho; Mar. G. Glazier, of Michigan; Governor of New Mexico.

Mrs. SENECA is preparing a speech to be delivered in the Senate some time during the coming session reviewing the English and American cases as they have been made up for presentation to the Geneva Conference.

A man named Stephen Wilcox was fatally injured yesterday evening in a boiler of the heating apparatus in the Detroit Gas Works, Friday afternoon. The explosion also demolished a moderate sized brick building.

GOR. AUSTIN, of Minnesota, in his annual message, recommends that the five hundred thousand acres of internal improvements lands which have been a bone of contention in the Assembly for the last five years be put in the hands of the people to be disposed of by a public vote.

SIR NATHAN BLAIR made a speech at Jefferson City on Thursday evening, in which he stated he had time to consult with his constituents. He reiterated his views regarding the passive policy urged its adoption, but stated that if the people thought best to nominate a Presidential candidate, he should, of course, support him.

The impression in legal circles in Washington is that the forthcoming decision in the Supreme Court, on the application for a *mandamus* in the Kentucky tax case, will cause the payment by the Treasury Department, will be adverse to plantiffs. The only way in which Kentucky can relief in this instance is believed to be through the action of Congress.

The United States Register's office is still engaged in making enquiries to answer the questions lately asked by the counsel for the defense in the Tichborne case. The Osprey, of Boston, has been recently traced to Australia in 1851. It is not yet known whether it was never received or passengers from the Belli, but the Osprey herself was lost on her return from Australia, with seventy or eighty passengers on board.

A PASSENGER on the North Missouri Railroad jumped from a car on Monday, Mrs. SCOTT, fell beneath the wheels, and was instantly killed, his head being completely severed. Cash and notes amounting to \$11,000 were said to have been found on the person of the deceased, but his name could not be ascertained.

PRESIDENT GRANT will at an early day submit to Congress a message in relation to the better protection of emigrants, as indicated in the last annual message of the president of which he confined his report of the services of a agent who was kidnapped last summer by the *Prussians* on a pleasure trip to Germany to enquire about that subject.

A WASHINGTON man says: "Several Senators and members, such as Calvert, are receiving communications from different parts of the country, denouncing the new rules regulating the civil service. It will undoubtedly meet with strong opposition in Congress. Could she, in other words, expect that it would compel the heads of departments to dispense with the services of some of their valued officers? For the reason that there are no permanent examinations."

A NORN, Tammany ruffian, expelled from a sinecure which he held under Tweed & Co., claims to have absolute knowledge of the Martin, our master, and of his whereabouts. He offers to make known the names of the men who are engaged, if he can obtain a reward for one of his relatives, who seems to have been an accomplice in the crime. It is stated that he had several conversations with the police, and that he is a man of great weight to keep the matter quiet until the employer secures, who considers himself perfectly secure, can agree.

Abroad.

GEN. ANDREW PORTER, formerly of the United States army, died in Paris, on Thursday.

ADVENTURES FROM AFRICA mention the discovery of a diamond weighing 150 carats, and a large number weighing from 70 down to 12 carats.

The total number of deaths from small-pox in London during the last year was 3,000. The average of the thirty-one years preceding is 499. The medical journals call attention to the singular fact that the disease has not once been reported in the month of January.

The Mexican capital is excited over a rumor that 7,000 American troops are being concentrated in the Rio Grande, and that General Aguirre has received orders to cross the river into Mexico and support Juarez.

It is reported that Sir Samuel Baker, and all his men, who were exploring Central Africa and the headwaters of the River Nile, have died of starvation. One report states that his men starved and shot Baker. Another report states that Baker and his wife were left off the expedition.

THE Mexican revolutionists hold the states of Durango, Coahuila, Nuevo Leon, Sonora and Oaxaca, but make no progress. The government has gained ground in Oaxaca. Anarchy continues in nearly every state. Hostilities of all kinds are protracted and extremely oppressive are the order of the day.

The Elms of Old Trinity.

BY H. T. TUCKERMAN.
Shame on the ruthless hands that tore away
The venerable elms, whose graceful domes
Covered the green lawns, and the green groves,
Their overarching boughs through which the sun
Shone brightly, and the birds sang a sweet
Song, interposed to give them shade a shield,
By nature intended to guard the spot.

And when in fullness of time, the elm stood,
With its spreading branches, like a giant tree,
What consternation that human skill can rear
Can with their living symmetry compare?

What wood with theirs of trailing leaves?
Or choral anthem, and the organ's peal,
Or voices of the angels, and the angels' song,
In their verdant depths the loosed trumpet
That shuns the earth with such a stately sweep?

The silent branches in their judgment arrayed,

Then life's revival, to the trembling soul,
Echos of prayer, the jubilant refrain,
Or choral anthem, and the organ's peal,
In their verdant depths the loosed trumpet
That shuns the earth with such a stately sweep?

The silent branches in their judgment arrayed,

Then life's revival, to the trembling soul,
Echos of prayer, the jubilant refrain,
Or choral anthem, and the organ's peal,
In their verdant depths the loosed trumpet
That shuns the earth with such a stately sweep?

The silent branches in their judgment arrayed,

Then life's revival, to the trembling soul,
Echos of prayer, the jubilant refrain,
Or choral anthem, and the organ's peal,
In their verdant depths the loosed trumpet
That shuns the earth with such a stately sweep?

Valley

F. E. DU TOIT Proprietor.

VOLUME 10

The Valley Herald

Official County Paper.

CHASKA THURSDAY JAN. 25 1872.

Editorial Correspondence.

ST. PAUL, Jan. 23d 1872.

Business legislative, has fairly begun, and multitude of bills are being introduced daily.

The house being large, one hundred and six members, and each member thereof, having at least one pet measure to "put" through, a great share of which have already been introduced, will give us food to "digest" for the remainder of the term.

The members from Carver County are upon several important committees, and consequently command considerable influence.

The Baxter in the Senate is so well and favorably known throughout the State, that any mention of his position and legislative influence by our hand and through the columns of the Herald is wholly unnecessary.

Mr. Johnson of Carver, has introduced a bill in the House to exempt public highways and turnways from taxation for a very important measure and will, without doubt, become law in due time.

Mr. Du Toit, has introduced a bill to amend Sec. 1 & 24 of the State Constitution, providing for biennial sessions of the legislature. We are not so sure of this measure becoming law, but shall nevertheless do "our level" best towards carrying the bill. But as there are so many ambitious "spirits" in the House, We doubt our ability to carry the measure.

Mr. Lineau of Watertown has also introduced several bills of a general nature, and of practical benefit to the people at large.

Bills have also been introduced, regarding the court commissioner system and also to completely re-organize the county organization system; in general, but as they are so called in nature, we hardly believe they will develop any great strength in either branch of the Legislature.

We will keep the readers of the Herald hereafter, fully posted on all matters concerning the general welfare of the people of the State at large.

FRED.

VICTOR EMANUEL'S ARMY.

How well prepared Italy is to maintain an army may be understood from the present unsatisfactory character of her financial position. The idea of making Rome the capital of the United Kingdom has already cost us much as it was worth.

Its public revenue for 1870 was £33,621,530, its expenditure £44,185,040, showing a clear deficit of nearly £9,000,000. Its public debt in April, 1869, was at such an uneasiness amount that it must be expressed in round numbers at 300,000,000. It paid interest on the debt in 1870 amounting to £8,632,592. Its exports in 1867—the last year of which we have any record—were £6,000,000 less than its imports. From one country alone last year it exported but one half of what it imported. It has a population of 25,000,000, of whom two years since, before the convention of September was broken, 4 were Generals, 13 Lieutenants Generals, 37 Major-Generals, 221 Colonels, 263 Lieutenant Colonels, 759 Majors, about 17,000 other officers, and 360,000 were effective soldiers, or not effective, at least so described in the official reports. Thus on the 1st of January, 1870, there were under colors 549,442 men. These were withdrawn from positions in which their superior intelligence might have made them of material service to the country—11,232 officers, besides 2,664 who were available and might be called on at any time to serve.

A FRENCH infidel, a man of some learning, was crossing a desert in Africa, called the "Great Sahara," in company with an Arab guide. He noticed, with a sneer, that at certain times the guide, whatever obstacle might arise, put them all aside, and kneeling, on the burning sands called on his God. Day after day passed, and still the Arab never failed to do this. At last, one evening, when he arose from his knees, the would-be philosopher asked him, with a contemptuous smile: "How do you know there is a God?" The guide fixed his eyes on the scuffer for a moment in wonder, and then said, solemnly: "How do I know that a man, and not a camel, passed my burast night in the darkness?" Was it not the print of his feet in the sand? Even so," said he, pointing to the sun, whose last rays were flashing over the desert, "that footprint is not of man."

A GENTLEMAN of a slightly irritable temper calling out loudly for some hot water from his bed room was unanswered. Seizing a small bureau, he shoved it before him to the head of the stairs, and sent it whirling, end over end, to the hall below. The crash was loud enough to bring out mother, daughter, and all the servants. The head of the family was seated at the top of the stairs, elbows on knees chin resting on hands.

"Oh, father! what is the matter?" asked the frightened daughter.

"Matter?" said the old man; "why, here I've been a callin' and callin' for you nigh on a half an hour, and now I've telegraphed for you—that's all."

A MULE in Talbot county, Md., was affected with a swelling in the legs, and began to tear off the diseased flesh with his teeth till it had stripped the legs below the knees in several places to the bone. In attempting to rise from a recumbent posture it broke off the tendons at the knee. It then hobbled around the stable in the stumps, apparently in good spirits and with an excellent appetite, eating whatever food it could get. Then commenced to eat the skin from the stumps, and had stripped one to the shoulder, when it was shot out of humanity.

The friends of Mr. Kelly will greatly rejoice at his good fortune.

REMOVAL OF THE COUNTY SEAT.

We understand a petition has been circulated through the back part of the County, to be presented to the legislature, praying for the passage of an act authorizing the people to vote upon the removal of the County Seat from Chaska to Benton. At what particular place in Benton, if any, is designated in the petition, we are unable to state. Last winter Waconia was in the field for the County seat, but now abandon all hopes of ever getting it and are uniting with Benton in their petition. More anon.

BROKEN UP.—Last Saturday the Sheriff of McLeod County "gobbled" a gang of thieves at New Auburn in that County to wit: One Stacy, Chase and Johnson. For the past year there has lived in the woods in that locality a party of from three to five desperate characters who have made a regular business of preying upon the inhabitants of McLeod and Carver Counties. Two of the supposed gang were in jail here for three months last winter. Their thieving was of a character out of the ordinary cause, being principally wheat, oats, farm produce, farming tools and such odds and ends as they could find around farm houses. They are now on trial at Hutchinson. We hope they will get the full extent of the law.

Wheat.—Wheat brought \$1.15 in this town last Saturday, it is worth \$1.03 at the present time.

THE MINNEAPOLIS & ST. LOUIS R. CO. are running, since Monday last, two regular passenger trains over the road, each way daily.

Business.—H. Kenning & Son, will be seen by an advertisement in another column, are now prepared to do all kinds of work in the line of doors, sash and blinds, &c. This enterprising firm have recently purchased, and put into operation, an engine, which greatly facilitates their work and thereby reduces the price of everything manufactured by them. The energy and enterprise manifested by them in their business, entitles them to success.

HARPERS WEEKLY.—We have just received the last number of Harpers Weekly with its more than usual amount of interesting reading matters and engravings. Considerable portion is devoted to the newspaper and biography of the late James Fisk Jr. The publishers continue to make it the best and most popular of all the illustrated weeklies published.

The Prince of Wales.—The illness, the danger and the convalescence of the Prince of Wales is an old story now, yet there are features in it which still command attention. A London paper, speaking of one aspect of it, says—

"There is considerable excitement in Young America growing out of an effort to the part of some of its citizens to change their ill-fated destiny with death, has been manifested in the most unexpected quarters and the most striking forms, till we scarcely know which is the most dramatic incident, the sudden service in his behalf in all the Fire temples of Western India by a race to which his own is modern, and under forms before which our rituals are of yesterday, or the address of sympathy and hope which all the Democratic or Republican Societies of Great Britain are singing to their Queen, an address, we venture to say, almost unequalled in our history, as evidence of the strength of the bond which unites the people and the throne."

Advertiser in the HERALD.

The unity of feeling throughout the empire about his illness, the intense desire that he should win his gallant struggle with death, has been manifested in the most unexpected quarters and the most striking forms, till we scarcely know which is the most dramatic incident, the sudden service in his behalf in all the Fire temples of Western India by a race to which his own is modern, and under forms before which our rituals are of yesterday, or the address of sympathy and hope which all the Democratic or Republican Societies of Great Britain are singing to their Queen, an address, we venture to say, almost unequalled in our history, as evidence of the strength of the bond which unites the people and the throne."

If you want anything in the line of harness, saddles &c. call upon Mr. Schubert near HERALD Office, he keeps a full stock.

HERALD AGENT CARVER—G. A. DuToit

Saint Paul & S. C. R. R.

The following indicates the time for the arrival of trains at Merriam Station

Up TRAINS.....10:30 A. M.....6:00 P. M.

Down TRAINS.....9:35 A. M.....2:00 P. M.

J. F. LINCOLN, Sup't.

H & D. RAILWAY.

The following indicates the time for the arrival and departure of trains at Chaska.

Down train.....9:30 A. M.....6:00 P. M.

Up train.....10:30 A. M.....6:00 P. M.

They leave Carver 15 minutes previous.

Decided.—It is our sad duty to record the death of our well known and much respected fellow citizen, Adolph Munster. He was confined to his bed about 10 days, with small pox, and at about 5 o'clock p. m. Sunday, he breathed his last.

Mr. Munster had been a resident of Carver for about three years, most of the time at work for John Duan, and he had made many friends, indeed we doubt if he had an enemy in the world. He was of a genial disposition, always had a pleasant word, was one of our best citizens. May he rest in peace. He leaves a wife, and several small children who certainly are to be pitied, left as they are.

Co. OFFICERS.—We give below the names of the County officers of this Co., as per request. Auditor, Peter Wege; Surveyor, H. J. Clever; Sheriff, Fred Heckman; Register of Deeds, F. Greiner; Clerk, M. Walk; Judge Probate, A. Sargent; Clerk of Court, G. Krasny; Treasurer, F. Hassensl, Supt. of Schools, J. Thor Kerker, Waconia, Co. Commiss. A. J. Carlson, Chairman, R. Patterson, Peter Hartel, Jos. Weissbecker and A. P. Atkins.

SOME.—Dr. E. H. Lewis, vaccinated 79 persons on Friday last at Johnson Mill, in the town of Hancey. Hows that day.

SHIPPED.—Wm. Glutschka shipped 2 car load of logs to Kelly & Brackett, Minneapolis, on Saturday, and he has more left.

E. Holmes also shipped 5000 bushels wheat over the Minneapolis Road, consigned to Chas. B. Newcomb & Co. Duluth.

PENSOVSKY.—Capt. Harry W. Holmes of that flourishing City, Wabashaw, made his old home and friends a short visit on Tuesday last. This was the Captain's first visit to Carver in over two years, and he expressed himself as surprised that the rapid growth of the place since then.

J. B. Dean and A. J. Snyder of Glenco were in town last week.

Joe Long of Merriam, presented his good looking "phiz" at our place on Saturday.

H. Tanner of Howard Lake, spent a day in town last week.

RESIGNED.—John Dunn, and John Funk, Town Supervisors have resigned. Joseph Weinmann, being appointed to take Mr. Funk's place. We believe no one has been fixed upon by the Board as Chairman in place of Mr. Dunn.

ON THE WAY.—The sale for the bank at Corver has been bought and is on the way. It is a very large one. The owners intend to get running by the 10th of Feb.

NEW AGENT.—We are informed that M. H. Iltis of Chaska has been appointed as agent for the Hastings & D. R. R. at that place.

TIME CHANGED.—The Minn. & St. Louis R. R. are running, since Monday last, two regular passenger trains over the road, each way daily.

PРЕДЧАСТІЯ.—Rev'd. Mr. Powell, Episcopal Clergyman from Saint Paul will preach in Carver on next Sunday at 7 o'clock.

MUSTERING IN.—H. W. Buse Esqr. is empowered to muster in the officers elect of Carver Post G. A. R. We gave a list of them a few weeks ago.

Capt. Johnson, L. L. Baxter and H. W. Buse, represented this Post at the grand encampment held in Saint Paul last week.

DIED.—Mrs. Swanson, wife of Andrew Swanson died on Friday evening at about 8 o'clock. This is a sad blow to Mr. S., and he has a babe only a few days old. The funeral was on Monday, and a large concourse present.

FOR SALE.—We have for sale a large fine proof steel sheep. It is a new one, but too small for our use, terms will be made sat. & cary. Call and see it.

IN TOWN.—Our friend Ernest Hansen of Watertown, made us a pleasant call during the week. He reports all things doing well at the end of the country.

DISPOSITION OF THE 500,000 ACRES.

A bill has been introduced proposing to dispose of the much talked of grant of land, substantially as follows: It provides that the land be appraised and for sale in about the same manner as our school lands, and that the proceeds arising from such sale shall be devoted to the support of schools, and for the payment of debts of the state.

THE PRINCE OF WALES.—He therefore abandoned the usual mode of treating it, and onadvised his patients a mixture of various salts and in a very short time reduced the mortality of fever in the West Indies from one in five to one in fifty.

The Prince of Wales.

The illness, the danger and the convalescence of the Prince of Wales is an old story now, yet there are features in it which still command attention. A London paper, speaking of one aspect of it, says—

"There is considerable excitement in Young America growing out of an effort to the part of some of its citizens to change their ill-fated destiny with death, has been manifested in the most unexpected quarters and the most striking forms, till we scarcely know which is the most dramatic incident, the sudden service in his behalf in all the Fire temples of Western India by a race to which his own is modern, and under forms before which our rituals are of yesterday, or the address of sympathy and hope which all the Democratic or Republican Societies of Great Britain are singing to their Queen, an address, we venture to say, almost unequalled in our history, as evidence of the strength of the bond which unites the people and the throne."

Address from Rio Janeiro are to December 2nd. New had reached Montevideo from Asuncion that a revolt recently broke out in Paraguay, but was suppressed before it had attained serious proportions.

ANSWER ME.

BY ADA DEANNE MENKEN.

In from the night,
I'll bring you home to the sky.
Friend of my heart, who so gently marks out the
Heads-track for me, draw near to-night;
Forget me not, the mornings of the freezing, and the starry-
ing, and the dying, and bend your head low to
me;

Closh my cold, cold hands to my heart;
Thus I'll bring you home to the white I question you,
and if you love, answer me—

Oh, answer me!

II.

There is not a gleam of peace in all this treacherous earth;
Does not the east cheer all the desert-world?

Must I never plead for help to do the work before me?

Must I never taste the fruits of the deepest shade?

Must I never breathe and taste of the gates beyond?

Must I find rest only in your bosom, as I now do?

Oh, answer me!

III.

Speak of me tenderly,
Think of me kindly,

Look back upon my past back my hair.

Let my fond, fondest fears face to yours.

Let me question you, why sweet Faith and Trust

Are telling their white robes to the world?

Let us all baptize in the Wilderness of Sin,

For we are here to learn to lead our world.

When does the heart awake?

What is all labor, strive, etc?

Has it no reward but that?

Has it no tear, no tear, and—break?

Oh, answer me!

IV.

The storm struggles with the darkness,

Folded away in thy arms, how do I need thee?

Thee I see in thy naked swords against me?

I go forth with the tempest, and the voice of thy voice is

Like the roar back to silence.

The darkness presses his black thunder to the earth

To the rock.

Will he bring another gal to see you?

Will he bring another gal to see you
